Premium Vinyl

Replacement Windows

and Patio Doors

7000 SERIES

It's time to meet the window designed for your life. Welcome top-of-the-line energy efficiency – and all the money you'll save on energy bills. Embrace having more time to spend on the things you care about, rather than on scraping and painting old wood windows. Say hello to a brighter, more beautiful home.

We're Thermal Windows & Doors. In 1960, we created the very first custom-vinyl replacement window in America, and today we're pleased to bring our state-of-the-art windows to you, all backed by one of the strongest lifetime guarantees in the industry.

Introducing the 7000 Series, a replacement window that delivers above industry standards for structural integrity, maintenance reduction and thermal performance.

Thermal Windows. **Designed for Your Life. Guaranteed.™**

Windows should brighten up your life, not complicate it. With vinyl windows from Thermal, you'll get top-of-the-line performance and energy efficiency – without ever having to scrape, sand or paint another window again.

Energy Efficiency

It's all in the name. Thermal Windows offer the very best in energy efficient features. Our warp-resistant vinyl, fully-welded frames and Peak Performance™ Eco Glass provide tight seals and exceptional insulation, so you'll have lower energy bills year-round.

Easy Care

We use the highest quality PVC vinyl in our windows, which means they'll never warp or need painting or refinishing. Tilt-in sashes and optional grids between the panes make cleaning even easier.

Environmentally Friendly

Greener is always better. PVC vinyl is a better option for the environment than many competing products. It emits less CO_2 and requires 20 percent less energy to produce than other plastics.

Fully Customizable

Choose from a wide range of enhancements and customizable options to make your windows fit any cosmetic, functional, style or budget requirement. With vinyl windows from Thermal, you can add custom color-matched exterior frames, custom shapes, internal grids, thermal upgrades and much more.

Bay

VINYL ADVANTAGES

The Features that Matter Most

Choose from industry-leading features that offer the benefits you care about: energy savings, appealing design and quality construction, all backed by a lifetime warranty.

Energy Savings

- **Peak Performance™ Eco Glass** combines one lite of triple coat Low-E glass and one lite of clear glass, enhanced with Argon gas and a warm-edge spacer system for exceptional thermal performance
- **Dual Compression Seals** reduce air infiltration
- **Dual Weather-Stripping** virtually eliminates air and water infiltration
- **Fully Interlocking Sashes** reduce air infiltration at meeting rail

Foam Inserts combined with dead air chambers boost thermal properties

Built to Last

- **Solid Vinyl Construction** will not chip, peel or rot and never requires scraping or painting
- **Compression Fit Fusion-Welded Mainframe and Sashes** ensure maximum strength and reduced air infiltration
- **Parallel I-Beam Construction** provides increased strength, durability and structural integrity
- **Multi-Chambered Construction** provides enhanced structural integrity
- **Integral Pocket Header** provides clean interior appearance and prevents air infiltration
- **Sloped Sill and Dual Drainage** with weep system significantly improves water drainage

Life Made Easier

Lifetime Warranty, Lifetime Insulating Glass Warranty, Lifetime Glass Breakage Warranty and Lifetime Screen Warranty for your peace of mind

- **Constant Force Balance System** offers easy, frictionless sash movement
- **Balance Covers** provide a clean, aesthetically pleasing appearance
- **Beveled Screen Track** stiffens frame and enables easy screen removal
- **Full Fiberglass Screen** is standard*
- **Equal Sash Sight Lines** provide a greater viewing area
- **Extruded Vinyl Lift Rails** ensure easy sash operation
- **Cam Action Lock** provides security and peace of mind
- **Dual Night Latches** offer ventilation
- **Tilt Latches** make it easier to clean your windows
- **Locking Zinc Pivot Pins** prevent accidental sash removal while cleaning your windows

7000 FEATURES

Manufacturer reserves the right to substitute components as necessary.
* Screens are not meant to restrain a child from falling through an open window.

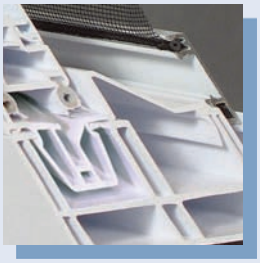
Cam Action Lock

Night Latch

Foam Inserts

Tilt Latch

Optional Features

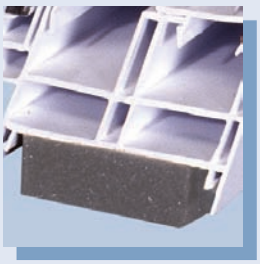


Vortex™ Sill

Quickly removes water from frame system and your home.

Magnetic Seal

Creates air and water tight seal between sash and mainframe.



Foam Frame Wrap

Provides an energy efficient weather seal around the entire window frame, outperforming traditional insulation.

Grid Options

Choose from a variety of decorative grid patterns, styles and colors. All grids come between the glass for easy maintenance and a clean, modern look. Grid options include:

- 3/8" square
- 5/8" flat
- 5/8" or 1" contoured

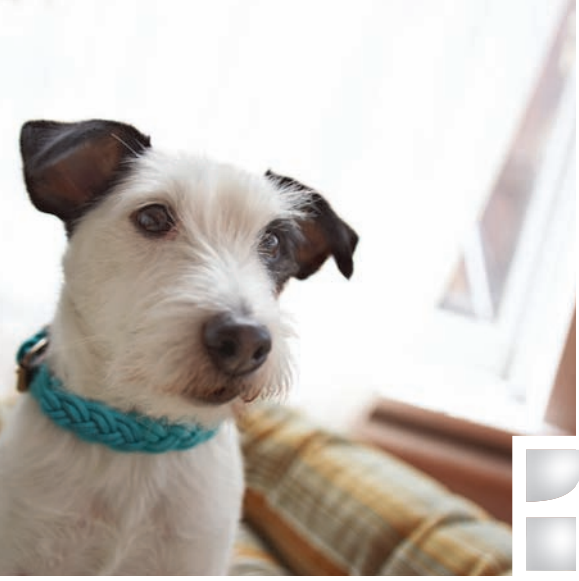
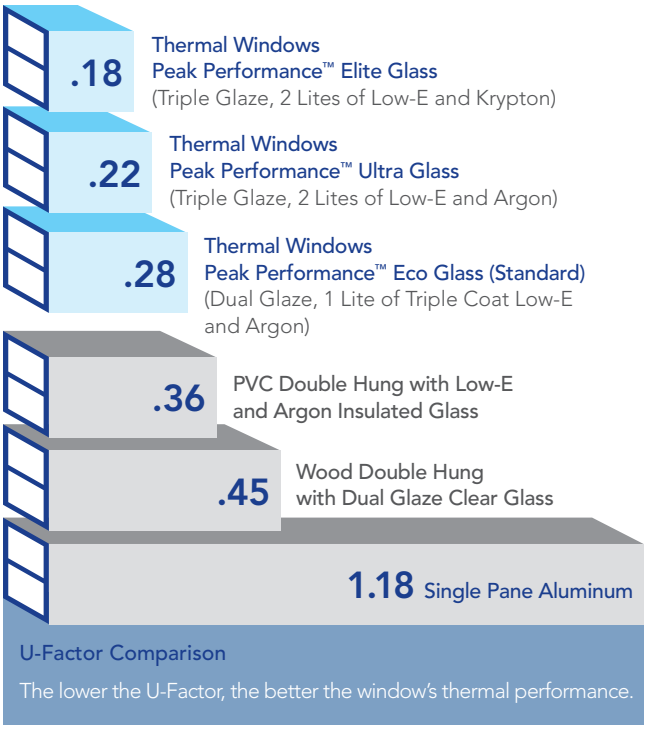
- Casement Windows
- Bay & Bow Windows
- Garden Windows
- Sliders
- Patio Doors



Performance You Can Count On

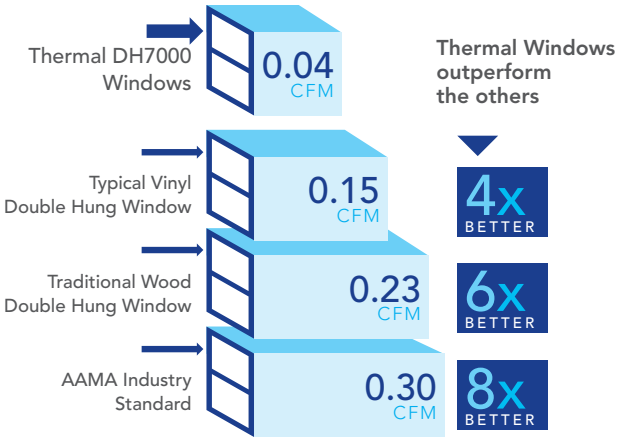
The Series 7000 Window System protects your home and your wallet from rising heating and cooling bills with the Peak Performance™ Eco Insulating Glass System. This advanced Eco glass system features one lite of high performance triple coat Low-E Glass and one lite of clear glass, combined with insulating Argon gas and warm-edge technology, making your home a haven of optimum energy efficiency and comfort.



NOTE: Values are for single strength glass units.

Air Infiltration

When it comes to air infiltration, less is more. The lower the CFM (cubic feet per minute), the less air the window lets pass through. This example shows how our windows compare to other windows and industry standards.



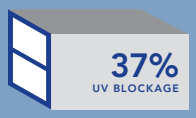
NOTE: Values denote rounding to the next whole number.

7000 ENERGY EFFICIENCY

Fade Protection

Ultraviolet light inhibitors help prevent harmful UV rays from damaging and fading your furniture, drapes, carpets and hardwood floors.

Thermal Windows
Peak Performance™ Eco Glass (Standard)
(Dual Glaze, Triple Coat Low-E and Argon)



Clear Glass

Note: Values are for single strength glass units only, not for the entire window.

Energy Efficient Glass Options

Thermal Windows & Doors is proud to manufacture vinyl replacement windows and doors with the ENERGY STAR® label. Every ENERGY STAR qualified window is independently certified by the National Fenestration Ratings Council, or NFRC, to perform at or above strict levels set by the U.S. Department of Energy. The rating gives you the tools needed to compare window performance.

Peak Performance™ Eco Glass

Our Peak Performance Eco Glass system combines one lite of high-performance triple coat Low-E Glass and one lite of clear glass, sealed together with a warm-edge spacer system. The air space between the two is enhanced with Argon, an insulating gas.

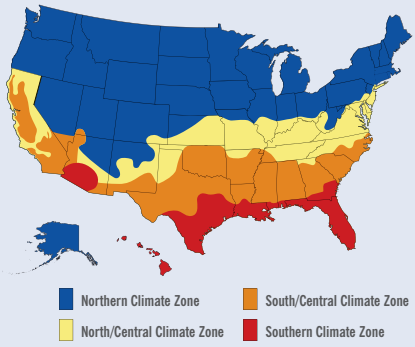
Peak Performance™ Ultra Glass

Peak Performance Ultra Glass combines triple glazing, Low-E Glass and Argon gas to offer a U-factor of 0.22, an insulating value that exceeds ENERGY STAR and Department of Energy R-5 criteria.

Peak Performance™ Elite Glass

The addition of Krypton gas for optimal insulation gives our Peak Performance Elite Glass system an exceptional U-factor of 0.18, which far exceeds ENERGY STAR criteria and Department of Energy R-5 criteria (the lower the U-factor, the better a window insulates).

ENERGY STAR Climate Zone Map



Criteria for Windows

Climate Zone	U-Factor	SHGC
Northern:	≤ 0.30 = 0.31 = 0.32	Any ≥ 0.35 ≥ 0.40
North/Central:	≤ 0.32	≤ 0.40
South/Central:	≤ 0.35	≤ 0.30
Southern:	≤ 0.60	≤ 0.27

Ask about our ENERGY STAR qualified windows and doors. We offer a variety of high-performance, insulating glass systems that qualify our products for the ENERGY STAR label.
